

Safe. In any way. SUREPLAY® Play'n Asphalt

SUREPLAY® Play'n Asphalt is made of thermoplastic elements and perfectly fit for decorative surface designs like promenades, pedestrian zones, public places or parking areas. It is installed manually on site.

It brings lines, symbols, letters and digits or even complete games in all sizes on the floor.

These colourful, durable markings are available in many colours and can be played on permanently in all kinds of weather.

The jointless on-site installation offers many advantages. A surface without any joints provides no chance to tear out individual parts that could otherwise become hidden tripping hazards for the elderly or wheelchair users. This surface is also vandal-proof.

many colours
lines, symbols, letters, digits or
complete games can be displayed

Whether you choose one of our colourful classics or prefer a creative tailor-made solution – SUREPLAY® Play'n Asphalt sets no boundaries to creativity.

Weather resistant
