

Safe. In any way. SUREPLAY® Sidewalk

SUREPLAY® Sidewalk is a water-permeable surface for outdoor use, perfectly fit for gravel walks, tree grates or robust parking areas etc. It is installed manually or mechanically on site.

The top layer is made of PU-bound natural gravel or chippings. Various natural colours and grain sizes are available. The set-up height varies depending on specifications.

SUREPLAY® Sidewalk can be manufactured with a thickness perfect for areas that are subject to traffic, like fire rescue paths.

The surface system ist classified R9 according to the German DIN 51130 "Testing of floor coverings – determination of the anti-slip property – workrooms and fields of activities with slip danger, walking method – inclined plane".

Set-up height: depending on specifications
 Base layer: finest PU-bound chippings
 Wear layer: 10 mm quartz gravel

Test result for workrooms and fields with a risk of slippage
