

Prestigious. Made for highest demands.
SUREPLAY® PU

SUREPLAY® PU is a waterproof surface for indoor use, made exclusively of PU. It can be individually enhanced with additional features like antibacterial properties, slip resistance, extreme resilience, fall protection etc. So SUREPLAY® PU can also be installed as SUREPLAY® Safety system for all falling heights up to three metres.

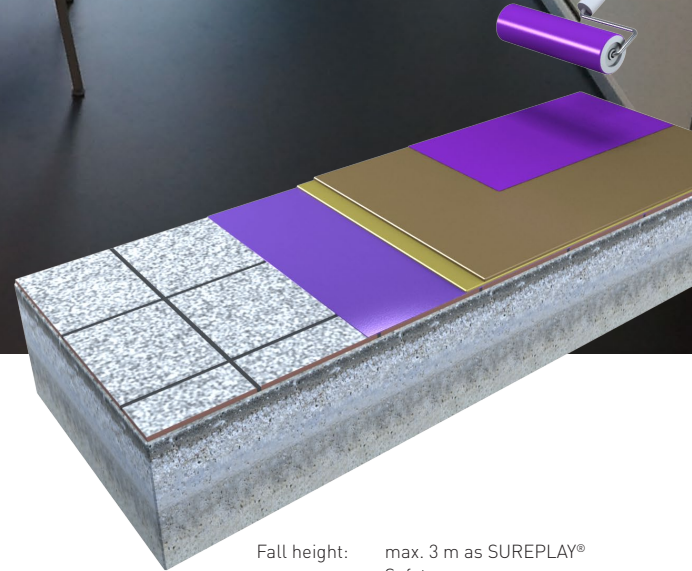

The base layer can be built up from hardly to highly elastic. A pigmented or transparent sealing serves as surface protection. The set-up height varies according to specifications.

The surface can be tested and certified according to EN 1176:2008 "Impact attenuating playground surfacing – Determination of critical fall height" for fall heights from ≤ 1.3 to ≤ 3.0 m.

The surface system is classified R9 according to the German DIN 51130 "Testing of floor coverings – determination of the anti-slip property – workrooms and fields of activities with slip danger, walking method – inclined plane".

SUREPLAY® PU Indoor for indoor use

SUREPLAY® PU Indoor is tested according to EN ISO 11925-2:2010 and EN ISO 9239-1:2010 in regard to fire behaviour as well as classified according to EN 13501-1:2010: Bfl -s1 (old designation: B1 DIN 4102, low flammability).

Fall height: max. 3 m as SUREPLAY® Safety
Set-up height: varies according to specifications
Standards: DIN EN 1176:2008 and ASTM F 1292-04

Slip resistant

Flame retardant

Environmentally compatible

Hygienic
