PLAY

Flexible. At every step.
SUREPLAY® Acrylex

SUREPLAY® Acrylex is an acrylat-based, water-impermeable flooring system for tennis or multisport grounds and skating. It is installed manually on site. The surface is set up on asphalt or concrete in multiple layers.

SUREPLAY® Acrylex surfaces are adjustable to any specifications of set-up thickness and surface texture (e. g. smooth for skating).

On request the system can be set up on a maximum of 5 mm thick, prefabricated elastic layer or with admixed rubber granules to achieve attenuation and thus a joint-protective base for basketball courts or multisport grounds.

Set-up height: max. 7 mm
Base: asphalt or concrete
Wear layer: multi-layered set-up according to use and specifications

Slip resistant

Flame retardant

Environmentally compatible

Hygienic

Weather resistant
